Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 24, 2004 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Bastian on September 24, 2004.

The application has been amended as follows:

In claim 2, line 9, after the "(a.3)" and before "a rigid segment of said wall", the phrase --a torsion bar attached to--was inserted.

In claim 2, line 10, after the "a rigid segment of said wall", the phrase --said rigid segment--was inserted.

In claim 2, line 10, the phrase "a torsion bar" was replaced with --the torsion bar--

Art Unit: 1637

In claim 4, line 8, after the "(c)" and before "a rigid segment of said wall", the phrase --a torsion bar attached to--was inserted.

In claim 4, line 9, the phrase "a torsion bar" was replaced with --the torsion bar--.

In claim 4, line 9, after the "a rigid segment of said wall", the phrase --said rigid segment--was inserted.

3. The following is an examiner's statement of reasons for allowance: The claimed invention now requires a torsion bar in the cartridge and not simply something "adapted to" a torsion bar. None of the cited prior art references teach or suggest the presence of a torsion bar. There is no motivation found in the prior art to place a torsion bar into the cartridge, where the cartridge also has an inner surface that has an array of oligonucleotides attached. Therefore, the claims are novel and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (571)272-0782. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
